

OSHO Teerth Park Visited by Virasat Pune on Their Heritage Cycle Ride

Virasat Pune is a people's movement to preserve heritage and culture. They believe that every city's heritage belongs to its people and therefore conservation is a public issue. They are an environment-friendly group and visit such sites on cycles. Recently a group of forty cyclists visited the OSHO Teerth Park, a beautiful 12-acre place that has been created out of a publicly-owned former wasteland.

Benedicte, the coordinator wrote, "Thank you very much for letting us visit the Osho Teerth Park as part of our Heritage Cycle Ride. Your work over there is very important to conserve Pune's natural heritage."
